

THE PROPOSED DESIGN

Klapprich Park and Bell Courts are intended to be utilized in a similar fashion as today, but with improvements that will create more opportunities for year-round and multi-generational use. Currently, the north and east sides of Klapprich Park are disjointed with steep grades and few walking paths.

The current maintenance drive is proposed to be modified to allow for drop-off and additional ADA accessible parking spaces adjacent to the proposed playground. The outdated and inaccessible playground is proposed to be replaced with an ADA accessible route for inclusive play built into the hillside. Play options will be expanded with a new nature play element tucked into the trees near the top of the hill.

The existing softball diamond will remain for casual play and use by youth teams. The existing hockey rink/dog park is to remain in its current configuration.

Klapprich Park Plan proposed to provide several winter recreational opportunities, including the current ice skating and sledding activities.

Bell Courts will retain its primary uses, but this master plan will expand the tennis court and move the bocce courts to accommodate four new pickleball courts, while retaining two doubles tennis courts. Minimal improvements to the north side of Bell Courts Park include additional screening between adjacent residences and an additional butterfly garden surrounding the existing water tower.

Additional street improvements are proposed to accommodate safer crossings and dedicated bike sharrow lanes.

KLAPPRICH PARK + BELL COURTS PROPOSED PLAN
